

SKY FULL OF STARS *

MUSIC *by* COLDPLAY

Stadium anthems, soulful ballads, catchy melodies, checked out and creative arrangements as well as a friendly demeanor. All of this describes the limitless and colorful world of **COLDPLAY**, the most successful band of the 21st century.

As experienced live musicians from a wide variety of genres, the members of the new band **SKY FULL OF STARS *** are united by their love for this band's unique sound. The combination of superficial minimalism and yet also complex and unusual passages is unique. The song is always in the foreground, not the egos. Honoring the special sound of the **COLDPLAY** songs live is both a drive and an honor for the musicians of the **SKY FULL OF STARS *** formation. Like the musical godparents, the band attaches great importance to perfect live sound and an appealing, rousing show. The quintet and especially the charismatic and empathetic frontman Sly take the audience by the hand and take them into a colorful world full of emotions and energy for a good two hours. And deliberately do so with its own identity, without appearing to be a simple copy of the original.

Celebrate, dance and sing together. Exert yourself and recharge your batteries at the same time with **SKY FULL OF STARS *** : Tobias “Sly” Weber (lead vocals, guitar), Stefan Turnsek (keyboard), Michael “Micky” Karpen (guitar, backings), Harald “Harry” Müller (bass, backings) and Steffen “Steff” Wellmann (drums, backings).
